High Impact Communities

GitHub

Virtual Event Kit

Everything you need for your virtual event. Design for engagement and we'll take care of the tools. The Virtual Event Kit gives students the resources to make running online events simple and accessible.

LatinXperts

HACK DHI

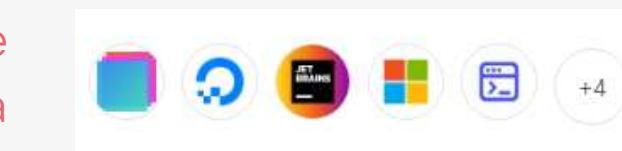

GitHub Campus Experts are students who build technical communities on campus, with training and support from GitHub.

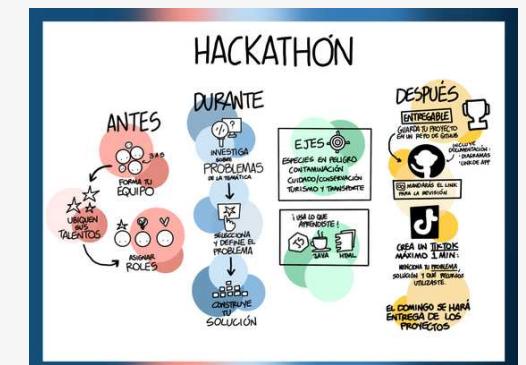

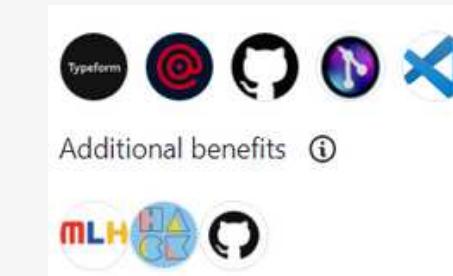

Intro to Web Dev

Everything you need to build your next website. Learn how to design and build your own website as you learn the basics of web development. The Intro to Web Dev Experience gives students the tools to start you on a path, no matter how much experience or technical knowledge you currently have.

Hackathon in the Cloud

Make managing your virtual hackathon events even easier. Learn how to organize, promote, and communicate your next codefest or hackday. Whether you're hosting your first or you're a pro, the Hackathon in the Cloud Experience gives students the tools to help empower student hacker communities.
